Dr. Steinmann, virologist, Bremen:
Certification for effectiveness against polioviruses from 28.01.2009.
Certification for effectiveness against adenoviruses from 17.02.2009.
Certification for effectiveness against noroviruses from 20.08.2008.

Classification of the substance or mixture according to 1272/2008/EC:

Danger

Highly flammable liquid and vapour. Causes serious eye irritation. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Dispose of contents/container to approved disposal company or local collection.

Use biocides carefully. Always read label and product information before use.
