Technical	Data She	et						
Article-No.: Description:	01198 BLUE ECO-PLUS Nitrile examination glove blue, non sterile, powder free							
THICKNESS* cuff 0,05 mm		ngertips 07 mm						
PRODUCT DESCRIP material	TION Latex	☑ Nitrile	Uinyl	Vinyl-Nitrile-	Polyethy-lene (PE)	П ТРЕ	□ cotton	
colour characteristics	 white prepowdered 	✓ blue✓ powderfree	□ black □ sterile	 mint ✓ non sterile 	□ purple □ ambidex- trous	 mix fits hand- specific 	 cobalt-blue Aloe Vera inner coating 	
surface	✓ textured	not textured	embossed					
SIZES width length	XS (5-6) ≤ 80 mm ≥ 240 mm	S (6-7) 80 ± 10 mm ≥ 240 mm	M (7-8) 95 ± 10 mm ≥ 240 mm	L (8-9) 110 ± 10 mm ≥ 240 mm	XL (9-10) 115 ± 10 mm ≥ 240 mm	XXL (10-11) 125 ± 10 mm ≥ 240 mm	XXXL (11-12) - -	
REGULATORY AFFA PPE-Regulation (EU) 2016/425 MD-Regulation		Category II Class II a	Category III	no PPE-article		no medical	CE	
(EU) 2017/745 Food Contact (EG) 1935/2004	 ✓ acidic foods 	✓ aqueous foods	✓ fatty foods	 ✓ alcoholic foods 	function dry foods	device not approved for food- contact	57	
STANDARDISATION EN 388 Mechanical Risks	abrasion resistance	blade cut resistance Coupe-Test	tear resistance	puncture resistance	blade cut resistance TDM-Test	impact test		
Level	not applicable							
EN 374-1 Chemical Risks	chemical Sodium hydroxide 40%				Code letter K P		ISO 374-1/Type B	
EN 374-4 Degradation	Hydrogen Peroxide 30% Formaldehyde 37%					r T		
EN 374-5 microorganism tightness	The glove is tight against microorganisms (viral, bacteria and fungi). Test according to ISO 16604 - method B.					EN ISO 374-5-2016 VIRUS		
EN ISO 21420 protective gloves	The glove meets the requirements according to EN ISO 21420							
EN 455 medical gloves for single use	The glove meets the requirements according to EN 455-1, EN 455-2, EN 455-3, EN 455-4. Force at break ≥ 6 N. EN 455							
EN 455-1 freedom from holes							AQL (1.5)	
EN 16350 electrostatic properties	not applicable

Article-No.: 01198

Description:

BLUE ECO-PLUS Nitrile examination glove blue, non sterile, powder free

WARNINGS AND SAFETY INFORMATION storage / expiry Store gloves in original packaging in a cool and dry place without additional weight, protect from direct sunlight. Do not store near ozone date sources (laser printers, copiers). The actual expiry time in use cannot be specified in general terms, as it depends on the general conditions of use. An individual risk assessment must be carried out in each case. The expiry date - valid for proper storage - is stated on the packaging. Always use protective gloves only for the intended use and in the correct size. A check/risk assessment must be carried out to ensure that use and control the gloves are suitable for the intended use, as the conditions at the workplace may deviate from those of the type test depending on temperature, abrasion and degradation. Breakthrough times and permeation levels are based on laboratory measurements and are determined using samples taken from the palm of the hand. The actual duration of protection of a glove with a specific substance can vary significantly due to the conditions of use (temperature, abrasion, stretching). In the case of aggressive chemicals, degradation (change in mechanical properties) can be an important factor to consider when selecting chemical-resistant gloves. This information does not reflect the actual duration of protection in the workplace and the distinction between mixtures and pure chemicals. The chemical resistance was determined under laboratory conditions only on the basis of samples from the palm and refers only to the chemicals tested. The situation may be different if the chemical is used in a mixture. The penetration resistance was evaluated under laboratory conditions and refers only to the tested specimen. The degradation results according to EN ISO 374-4 show the change in puncture resistance of the gloves after exposure to the tested chemical. Before use, the gloves must be checked for holes or damage. disposal Used gloves must be disposed of in accordance with the disposal regulations of the local waste disposal company. Unused gloves can be disposed of with household waste. disinfection Disinfection is not intended for these gloves and is the responsibility of the user. warnings/ Protective gloves are intended for single use only. allergy This product contains dithiocarbamates, which may cause allergic reactions information
